

Dune Insolite API — Endpoint Reference

Base URL: <http://localhost:8080> • Backend: [all\newfront\backend](#) • Updated 2026-07-15 — now includes response bodies

[1–2. Auth \(Register, Login\)](#)

[3–7. Reservations](#)

[8–10. Tours](#)

[11–13. Tour Types](#)

[14–16. Extras](#)

Endpoints 10, 13, and 16 (the three Delete endpoints) already existed before this list was requested — not new. Included with confirmed URLs regardless.

Endpoints 3–6 (Create/Update/Update-Status/Get-By-Id Reservation) all return the exact same `ReservationResponse` shape — shown in full once under Create Reservation (#3) and cross-referenced from the other three, rather than repeated four times.

Authentication

1. Register

POST

/api/auth/register

PUBLIC creates the user directly in Keycloak + a local User row

REQUEST BODY

```
{
  "name": "Test Client",
  "email": "client@example.com",
  "password": "Test1234!",
  "phone": "20000001",
  "role": "CLIENT",
  "matriculeFiscal": null,
  "agencyAddress": null
}
```

role is required, no default — must be exactly one of CLIENT, PARTENAIRE, CAMPING, ADMIN.

matriculeFiscal/agencyAddress only persisted when role = PARTENAIRE.

RESPONSE BODY 201 CREATED

```
{
  "userId": "a1b2c3d4-e5f6-7890-abcd-ef1234567890",
  "name": "Test Client",
  "email": "client@example.com",
  "phone": "20000001",
  "role": "CLIENT",
  "loyaltyPoints": 0,
  "loyaltyTier": "BRONZE",
  "matriculeFiscal": null,
  "agencyAddress": null,
  "reservations": [],
  "invoices": [],
  "hasSpecialRemise": false,
  "remises": []
}
```

This returns the raw JPA User entity, not a response DTO — unusual compared to every other endpoint in this document (all of which use dedicated *Response classes). Pre-existing behavior, not something introduced by this work. Its notifications field is @JsonIgnore'd so it never appears in the JSON, unlike reservations/invoices/remises which do (empty arrays for a brand new user).

2. Login

POST

/api/auth/login

PUBLIC

proxies to Keycloak server-side — you never need the Keycloak client secret

REQUEST BODY

```
{
  "email": "client@example.com",
  "password": "Test1234!"
}
```

RESPONSE BODY 200 OK

```
{
  "accessToken": "eyJhbGciOiJSUzI1NiIsInR5cCI6IkpXVCJ9...",
  "refreshToken": "eyJhbGciOiJIUzUxMiJ9...",
  "expiresIn": 300,
  "tokenType": "Bearer",
  "userId": "a1b2c3d4-e5f6-7890-abcd-ef1234567890",
  "email": "client@example.com",
  "name": "Test Client"
}
```

Use accessToken as Authorization: Bearer <token> on every other request below.

Reservations

3. Create Reservation

POST

/api/reservations

AUTH roles: **CLIENT, PARTENAIRE, ADMIN, CAMPING**

REQUEST BODY

```
{
  "userId": "7fbf5af6-1b3b-4698-b19c-e49a236fd66d",
  "sourceId": "3c9e1f2a-1111-2222-3333-444455556666",
  "reservationType": "TOURS",
  "serviceDate": "2026-08-10",
  "groupName": "Groupe Martin",
  "groupLeaderName": "Sophie Martin",
  "numberOfAdults": 2,
  "numberOfChildren": 1,
  "promoCode": null,
  "demandeSpecial": "Chambre calme si possible",
  "tours": [
    {
      "tourId": "f17a4ef9-af47-443c-9245-67f93ed966cc",
      "hebergements": [
        {
          "tourTypeId": "a1b2c3d4-e5f6-7890-abcd-ef1234567890",
          "activityDate": "2026-08-10",
          "numberOfNights": 1,
          "numberOfAdults": 2,
          "numberOfChildren": 1,
          "repartitions": [ { "tenteType": "DOUBLE", "numberOfTentes": 1 } ]
        }
      ]
    }
  ],
  "participants": [
    { "fullName": "Sophie Martin", "age": 34, "isAdult": true },
    { "fullName": "Jean Martin", "age": 36, "isAdult": true },
    { "fullName": "Emma Martin", "age": 8, "isAdult": false }
  ],
  "extras": [
    { "extraId": "b2c3d4e5-f6a7-8901-bcde-f12345678901", "quantity": 2, "activityDate": "2026-08-10"
  }
  ],
  "initialPayment": { "amount": 200, "paymentMethod": "CREDIT_CARD", "currency": "TND" }
}
```

reservationType is **HEBERGEMENT**, **TOURS**, or **EXTRAS** — body shape depends on it (verified against `ReservationServiceImpl.createReservation`):

- **TOURS** (shown above): `tours` (exactly 1 entry), `serviceDate` required.
- **HEBERGEMENT**: `tourTypes` instead of `tours` (1+ entries), `checkInDate`/`checkOutDate` required instead of `serviceDate`.
- **EXTRAS**: `extras` required (1+), `serviceDate` required, omit `tours`/`tourTypes`.

initialPayment is optional — omit to create as unpaid. The top-level **repartitions** field on this DTO is never read by the create logic — nest `repartitions` inside `tourTypes[]/hebergements[]` instead.

tenteType: SINGLE, DOUBLE, TRIPLE, X4, X5, X6, X7. **paymentMethod:** CASH, CREDIT_CARD, DEBIT_CARD, BANK_TRANSFER, ONLINE, CHEQUE. **currency:** TND, EUR, USD.

RESPONSE BODY 201 CREATED — THIS IS THE FULL RESERVATIONRESPONSE SHAPE, REUSED BY #4, #5, #6 BELOW

```
{
  "reservationId": "9f8e7d6c-5b4a-3210-9876-543210fedcba",

"repartitions": [
  {
    "repartitionId": "8192a0b1-8888-9999-0000-aaaabbbbcccc",
    "reservationTourTypeId": "2b3c4d5e-2222-3333-4444-555566667777",
    "tenteType": "DOUBLE",
    "numberOfTentes": 1,
    "capacityPerTente": 2,
    "totalPersonnes": 2
  }
],
"source": { "sourceId": "3c9e1f2a-1111-2222-3333-444455556666", "name": "Site Web" },
"guides": [],
"chauffeurs": [],
"hasFacture": null,
"factureDate": null
}

```

No **initialPayment** in the request → `transactions: []` and `paymentSummary.paymentStatus: "UNPAID"` instead. **`repartitions[].reservationTourTypeId`** is overloaded — despite the name, it holds the hebergement's id

here (TOURS case) or the tour-type's id (HEBERGEMENT case), never both. **hasFacture/factureDate** are always null — nothing in the codebase populates them yet.

4. Update Reservation

PUT /api/reservations/{reservationId}

AUTH roles: **CLIENT, PARTENAIRE, ADMIN**

REQUEST BODY

```
{
  "checkInDate": "2026-08-10",
  "checkOutDate": "2026-08-11",
  "groupName": "Groupe Martin",
  "groupLeaderName": "Sophie Martin",
  "numberOfAdults": 2,
  "numberOfChildren": 1,
  "demandeSpecial": "Chambre calme si possible",
  "promoCode": null,
  "tours": [ { "tourId": "f17a4ef9-af47-443c-9245-67f93ed966cc", "hebergements": [] } ],
  "participants": [ { "fullName": "Sophie Martin", "age": 34, "isAdult": true } ],
  "extras": [ { "extraId": "b2c3d4e5-f6a7-8901-bcde-f12345678901", "quantity": 1, "activityDate":
"2026-08-10" } ],
  "tourTypes": [],
  "repartitions": []
}
```

Every list field is a full replace, not a merge — send the complete desired state. Same nested shapes as Create Reservation (#3).

RESPONSE BODY 200 OK

Same ReservationResponse shape as #3 (Create Reservation) — reflecting the fields you just replaced.

5. Update Reservation Status

PATCH

/api/reservations/{reservationId}/status?status=CONFIRMED&rejectionReason=&companyType=DUNES_INSOLITES

AUTH roles: **ADMIN, CAMPING, PARTENAIRE, CLIENT**

No request body — status/rejectionReason/companyType are query parameters.

status (required): PENDING, CONFIRMED, CHECKED_IN, CANCELLED, REJECTED, COMPLETED. **rejectionReason** (optional String). **companyType** (optional): DUNES_INSOLITES or ROUTE_INSOLITE.

RESPONSE BODY 200 OK

Same ReservationResponse shape as #3 — status field reflects the new value, and rejectionReason is populated if you set it.

6. Get Reservation By Id

GET

/api/reservations/{reservationId}

AUTH any authenticated user

No request body.

Unlike /api/reservations/user/{userId}, this has **no ownership check** — any authenticated user who knows/guesses a reservationId can fetch its full detail. Same class of gap as the one fixed on the user-scoped endpoint; not changed here since it wasn't asked for.

RESPONSE BODY 200 OK

Same ReservationResponse shape as #3.

7. Get All Reservations

GET

/api/reservations

RESTRICTED roles: **ADMIN, CAMPING, PARTENAIRE**

No request body.

RESPONSE BODY 200 OK

A JSON array of the ReservationResponse shape from #3 — [{...}, {...}, ...], one entry per reservation, unpaginated.

Tours

8. Get Tour By Id

GET

/api/tours/{tourId}

PUBLIC

no Authorization header needed

No request body.

RESPONSE BODY 200 OK — TOURRESPONSE, REUSED (ARRAY FORM) BY #9

```
{
  "tourId": "f17a4ef9-af47-443c-9245-67f93ed966cc",
  "name": "Circuit Desert 2 Jours",
  "description": "Circuit 2 jours/1 nuit avec bivouac",
  "duration": "2 Jours / 1 Nuit",
  "passengerAdultPrice": 180.0,
  "passengerChildPrice": 90.0,
  "partnerAdultPrice": 150.0,
  "partnerChildPrice": 75.0,
  "isActive": true,
  "tva": 13.0,
  "aboutText": "Explorez le Sahara tunisien lors d'un circuit complet de 2 jours...",
  "highlights": ["Nuit en bivouac sous les étoiles", "Visite de villages berberes", "Guide francophone experimente"],
  "includedItems": ["Transport 4x4 tout le circuit", "Guide francophone", "Tous les repas"],
  "notIncludedItems": ["Boissons alcoolisees", "Pourboires"],
  "programSteps": [
    { "label": "Jour 1", "title": "Douz - Villages Berberes - Bivouac", "description": "Depart matinal de Douz..." },
    { "label": "Jour 2", "title": "Lever du soleil - Oasis - Retour", "description": "Reveil pour le lever du soleil..." }
  ],
  "meetingPoint": "Campement Dunes Insolites, Sabria - 30km de Douz",
  "location": "Sabria, Douz, Sahara Tunisien",
  "groupSizeType": "TOUTES_TAILLES",
  "languages": ["FR", "EN", "AR"],
  "cancellationPolicy": { "freeCancellation": true, "hoursBeforeDeadline": 48 },
  "coverPhotoUrl": "https://example.com/images/circuit-2j-cover.jpg",
  "photos": [
    { "url": "https://example.com/images/circuit-2j-1.jpg", "caption": "Bivouac sous les étoiles" },
    { "url": "https://example.com/images/circuit-2j-2.jpg", "caption": "Village berbere" }
  ],
  "averageRating": 4.8,
  "reviewCount": 12
}
```

averageRating is null (not 0) when **reviewCount** is 0 — treat null as "no reviews yet."

9. Get All Tours

GET

/api/tours

PUBLIC no Authorization header needed

No request body.

RESPONSE BODY 200 OK

A JSON array of the *TourResponse* shape from #8 — [{...}, {...}, ...], unpaginated, includes inactive/deactivated tours too (not filtered).

10. Delete Tour By Id (already existed)

DELETE

/api/tours/{tourId}

RESTRICTED role: **ADMIN** — hard delete

No request body.

RESPONSE 204 NO CONTENT

No response body.

Tour Types

11. Get Tour Type By Id

GET

/api/tour-types/{tourTypeId}

PUBLIC no Authorization header needed

No request body.

RESPONSE BODY 200 OK — TOURTYPERESPONSE, REUSED (ARRAY FORM) BY #12

```
{
  "tourTypeId": "a1b2c3d4-e5f6-7890-abcd-ef1234567890",
  "name": "Tente Suite Luxe",
  "description": "Tente suite luxueuse avec demi-pension",
  "duration": "1 Nuit",
  "passengerAdultPrice": 150.0,
  "passengerChildPrice": 75.0,
  "partnerAdultPrice": 120.0,
  "partnerChildPrice": 60.0,
  "tva": 13.0,
  "isActive": true,
  "aboutText": "Offrez-vous le summum du confort dans le desert.",
  "highlights": ["Lit king-size", "Climatisation/chauffage", "Service en chambre"],
  "includedItems": ["Diner gastronomique", "Petit-dejeuner premium"],
  "notIncludedItems": ["Transport", "Massages et spa"],
  "programSteps": [
    { "label": "Soiree", "title": null, "description": "Installation, diner gastronomique, coucher de soleil." }
  ],
  "meetingPoint": "Campement Dunes Insolites, Sabria",
  "location": "Sabria, Douz, Sahara Tunisien",
  "groupSizeType": "PETIT_GROUPE",
  "languages": ["FR", "EN"],
  "cancellationPolicy": { "freeCancellation": true, "hoursBeforeDeadline": 48 },
  "coverPhotoUrl": "https://example.com/images/suite-luxe-cover.jpg",
  "photos": [ { "url": "https://example.com/images/suite-luxe-1.jpg", "caption": "Interieur de la suite" } ],
  "averageRating": null,
  "reviewCount": 0
}
```

isActive is newly exposed on this response (the entity column already existed but was never surfaced before this thread of work).

12. Get All Tour Types

GET

/api/tour-types

PUBLIC no Authorization header needed

No request body.

RESPONSE BODY 200 OK

A JSON array of the *TourTypeResponse* shape from #11.

13. Delete Tour Type (already existed)

DELETE /api/tour-types/{tourTypeId}

RESTRICTED role: **ADMIN** — hard delete

No request body.

RESPONSE 204 NO CONTENT

No response body.

Extras

14. Get Extra By Id

GET /api/extras/{extraId}

PUBLIC no Authorization header needed

No request body.

RESPONSE BODY 200 OK — EXTRARESPONSE, REUSED (ARRAY FORM) BY #15

```
{
  "extraId": "b2c3d4e5-f6a7-8901-bcde-f12345678901",
  "name": "Diner Bedouin Sous les Etoiles",
  "description": "Diner traditionnel bedouin sous les etoiles",
  "duration": "2h (19h - 21h)",
  "unitPrice": 45.0,
  "isActive": true,
  "tva": 13.0,
  "aboutText": "Savourez un festin bedouin authentique sous un ciel etoile exceptionnel.",
  "highlights": ["Diner complet 5 plats", "Spectacle de musique et danse"],
  "includedItems": ["Couscous traditionnel", "The a la menthe illimite"],
  "notIncludedItems": ["Boissons alcoolisees"],
  "programSteps": [
    { "label": "19h00", "title": null, "description": "Accueil et installation" },
    { "label": "19h30", "title": null, "description": "Service du diner" },
    { "label": "21h00", "title": null, "description": "Fin de la soiree" }
  ],
  "meetingPoint": "Campement Dunes Insolites, Sabria",
  "location": "Sabria, Sahara Tunisien",
  "groupSizeType": "TOUTES_TAILLES",
  "languages": ["FR", "EN"],
  "cancellationPolicy": { "freeCancellation": true, "hoursBeforeDeadline": 24 },
  "extraDuration": { "startTime": "19:00:00", "endTime": "21:00:00" },
  "coverPhotoUrl": "https://example.com/images/diner-bedouin-cover.jpg",
  "photos": [ { "url": "https://example.com/images/diner-bedouin-1.jpg", "caption": "Table dressee sous les etoiles" } ],
  "averageRating": null,
  "reviewCount": 0
}
```

extraDuration is the one field that only exists on Extra, not Tour/TourType. **duration** (the legacy free-text field) is kept in sync separately and is not derived from it.

15. Get All Extras

GET

/api/extras

PUBLIC no Authorization header needed

No request body.

RESPONSE BODY 200 OK

A JSON array of the ExtraResponse shape from #14.

16. Delete Extra (already existed)

DELETE

/api/extras/{extraId}

RESTRICTED role: **ADMIN** — hard delete

No request body.

RESPONSE 204 NO CONTENT

No response body.
